All wild birds are protected under the Wildlife and Countryside Act 1981 (as amended), whilst they are actively nesting or roosting. A careful survey of the entire proposed working area should be undertaken to ensure that there are no nesting birds. If no signs of nesting birds are observed in any potential locations then works may start but the site must be constantly monitored during the working period.

Do not scale off this drawing or use for valuation purposes. Sketch proposals are for illustrative purposes only and have not been considered in respect of CDM Regulations
