## **DRAFT SNOWHILL CONSERVATION AREA APPRAISAL: QUESTIONNAIRE**

The Borough Council is undertaking a programme of review of its 14 existing conservation areas over the next few years. As part of that process it is seeking the views of the local community on what they see as special about each of the conservation areas and how the protection and enhancement of that special character needs to be managed in the future. As part of the review process the council will be looking to see whether the conservation area still merits designation and whether the existing boundary needs to be changed in any way.

The final version of the appraisal that is adopted by the council will include a summary of the responses from the consultation and how the views of the public have been taken into account in defining the special interest of the area.

You may make a formal representation to the Council regarding the draft conservation area appraisal by completing this questionnaire and returning it to:
